## Frontend Developer

✉ ganadhisMardikar7160@gmail.com ☎ 8956716111 📍 Pune, Maharashtra - 411046 📁 Portfolio

### Summary

Experienced Frontend Developer with over 1 year and 2 months of work and 5 months of internship in web development. I'm good with HTML, CSS, and JavaScript, and I specialize in React JS. I'm skilled in developing websites that function smoothly and have a polished look across different devices. I've successfully made webpages load faster with independent problem-solving. I'm excited to bring my tech skills and love for writing neat code to a lively development team.

### Professional Experience

**Programmer Analyst Trainee**, Cognizant 07/2022 – 03/2023 | Pune, Maharashtra

- Developed and maintained user-facing websites using HTML, CSS, JavaScript, and React JS.
- Integrated third-party APIs into existing applications for improved functionality.
- Collaborated with developers to create user-friendly web applications.
- Created UI components with reusable codes for a better user experience.
- Optimized the performance of web pages to ensure fast loading times. This included reducing image sizes, minimizing HTTP requests, and optimizing code for efficiency.

**Intern**, Cognizant 01/2022 – 05/2022 | Pune, Maharashtra

- Acquired knowledge of web design principles.
- Gained practical experience with relevant software and technology.
- Made a final project presentation at the end of the internship to communicate findings, share learnings, and offer suggestions for improving the program.
- Demonstrated ability to take initiative and work independently on assigned projects.
- Assisted others in solving problems using learnings and software tools.
- Learned and applied CI/CD tools to streamline the development process.

### Education

**MBA in BLOCKCHAIN MANAGEMENT**, D.Y. Patil University. 07/2022 – present | Pune, Maharashtra  
Online mode

**Bachelor of Engineering in Electronics and Telecommunication Engineering**, 07/2022 | Pune, Maharashtra  
NBN Sinhgad School of Engineering  
CGPA: 8.99

**Diploma in Electronics and Telecommunication Engineering**, SIET(Poly), Paniv 06/2019 | Akhuj, Maharashtra  
Percentage: 84%

### Skills

**Markup Languages** : HTML , CSS

**Programming Language**: JavaScript, TypeScript

**Front End Library**: React JS

**CSS Framework** : Tailwind CSS

State Management: Redux, Context API

**Version Control**: GIT, Netlify, Vercel

Data Fetching: React Query

**UI Design** : Figma

## Projects

### - React Pizza

[Link](#) ↗

- **Technology Stack:** Developed a React Pizza application using React Router for routing, Tailwind CSS for styling, and Redux for both remote and UI state management within a microservice architecture
- **API Integration:** Integrated an external API to dynamically load the pizza menu, managing asynchronous operations with promises and async/await.
- **User Cart and Order Management:** Implemented a user-friendly interface for adding items to the cart, collecting order details, and allowing users to prioritize orders.
- **Order Submission and Tracking:** Enabled users to submit orders via a POST request to the API, generating unique order IDs for tracking and implementing a user-friendly lookup feature.
- **Challenges and Solutions:** Overcame challenges related to asynchronous operations, state management, user input validation, and responsive design through strategic use of technology and problem-solving skills.

### - Personal Portfolio

[Link](#) ↗

- **Project Overview:** Developed a React-based personal portfolio showcasing projects built with React JS and Tailwind CSS, skillset, resume information, and contact details.
- **Interactive User Interface:** Designed an interactive and engaging user interface to enhance the overall user experience and encourage exploration.
- **Content Management:** Effectively organized and presented project details, skillset, and resume information for clarity and user engagement.
- **Problem-Solving:** Addressed challenges related to responsive design, content organization, and data presentation, showcasing problem-solving abilities in project development.
- **Professional Branding:** Recognizing the importance of establishing a professional online presence, the portfolio was developed to serve as a centralized platform for showcasing skills, projects, and experiences. It functions as a tool to communicate your capabilities to potential employers, clients, or collaborators, contributing to personal branding and career advancement.

## Languages

English

Japanese  
N5

## Interest

### Continuous Learning and Research.

- Actively engaging in ongoing research to stay up to date on the latest trends, best practices, and innovations in front-end development.

### Progressive Web Apps (PWAs)

- Implementing Progressive Web App (PWA) principles to enhance user experience, faster loading times, and deliver an app-like experience with smooth navigation and interactions.

## Certificates

- Cognizant Academy Responsive Web Design: HTML5 , CSS3 for Entrepreneurs
- Cognizant Academy Software Engineering 101
- Cognizant Academy The Complete JavaScript Course 2022
